

All About Ms. Christina ***Teacher – 3 Year Old Class***

About Me:

I grew up in south San Jose. I am the only child to wonderful parents that have been married for over 30 years. I enjoy being outdoors, going to theme parks, traveling, and spending time with my family and friends.

My Education:

I am currently attending San Jose State University where I am majoring in Child Adolescent Development. I currently have an Associates Teacher's Permit.

Why I Want to Work with Children:

I grew up as a YMCA kid from kindergarten to sixth grade, and volunteered for two years in high school, which is what inspired me to want to work with children. I have four years experience working in Licensed Child Care, and 10 years experience babysitting all ages. I enjoy working with children because I love coming to work everyday and knowing when I leave that I made an impact. Children are the future, and I believe it is important that the people and experiences in a child's life have positive influence on the type of adult they become.

My Goal(s) for this School Year:

My goals for this school year is to enrich the children's learning through academics and play. It is important for growing minds to have a balance of both, work and play, as they are learning so much every day. Another goal is to be a positive and nurturing influence to guide the children as they learn life skills that include good manners, kindness to others, be good helpers and listeners, and learn good hygiene habits.
